SOLAR PANEL STOCK.com

The end of your search.

The worldwide
B2B solar panel
search engine and
supplier directory

Questions:

- "Who has stock of poly panels of brand X in Europe?"
- "Are there 1000 pcs mono 300 Wp panels in Sydney?"
- "Which suppliers have stock in Africa?"
- ".....?"

Answer:

SOLAR PANEL STOCK.com

The end of your search.

What is SolarPanelStock?

SolarPanelStock is a B2B platform where professionals searching for PV panels and their suppliers meet. With the powerful search engine, users can search with several criteria like brand, type and country. The result screens show all suppliers with their stock data, panel datasheets and supplier information.

Suppliers will be contacted directly. This means that SolarPanelStock is only the link between demand and supply and is *not* something like a webshop or intermediary.

Who are the suppliers?

Companies delivering solar panels (B2B) are suppliers:

- Manufacturers
- Distributors
- Resellers

Who are the 'searchers'?

The users of SolarPanelStock are PV professionals searching for solar panels, for example:

- Distributors
- Resellers
- Installers
- EPC companies

Interested? What to do next? - Join!

1. Get more information on www.solarpanelstock.com
2. Go to the Join page: www.solarpanelstock.com/join/
3. On the join page, click REGISTER

After registration the supplier can log in and add his company data (logo, description, contact data, etc.) and add the panel and stock data. On the Links page the company logo with a link to the company website will be placed. The company and its panels can now be found via the search engine and the company is listed in the regional directory, depending on the region where its panels are located.

More information

If you need more information, please feel free to contact the SolarPanelStock team. You will find the contact data at the back of this folder.

The screenshot shows the website's navigation menu with links: Home, Help, Q&A, Directory, Links, Join Us!, Contact, Advertising, News, and Reviews. Below the menu is the 'Home' section with a search form titled 'Worldwide search for solar panels'. The form includes input fields for 'Brand' and 'Panel power (Wp)'. The 'Panel type **' field has a dropdown menu with options: Poly, Poly PERC, Mono, Mono PERC, and Thin Film. The 'Region **' and 'Country' fields also have dropdown menus. A 'Search' button is located at the bottom left of the form. To the right of the form, there are instructions: 'Fill in the desired search values and click the search button.' and '** The Panel type and Region are mandatory (must fill in), the other fields can be left empty (search all brands, all wattages and countries).'

Register and be found.
